ZN Consulting is an award-winning Digital Agency established in Brussels working to develop creative and digital campaigns for our clients. We are a communication agency that guides organizations to adapt to the digital age currently welcoming available interns.

In light of the current situation, we prioritize working from home. We offer the possibility for students to experience working in an agency by doing a virtual internship in these challenging times. In the longer-term, we hope to provide a physical internship but for the time being, working remotely is the new default.

ZN is the leading digital agency in Brussels and we’re looking for interns that are passionate about Digital Marketing & Communication, Ads, Design and Video Edition.
